Nithesh B Naik

NitheshNaik

## Summary

Versatile Full-stack developer with expertise in JavaScript, Node.js, responsive design, and data structures and algorithms. Passionate about building scalable web applications and solving complex problems with efficient solutions for dynamic engineering teams.

## Education

### Bachelor of engineering , Computer Science

2022 – 2026

Sambhram Institute of Technology – 8.14 CGPA

Bangalore, Karnataka

### XII

2020 – 2022

M.E.S P.U college – 82%

Sirsi, Karnataka

## Projects

### Duplicate File Finder | Node.js, Java, Spring Boot, REST API, JavaScript

August 2025

- Developed an application to identify and manage duplicate files by comparing file content, improving data integrity and storage efficiency.
- Led the technical implementation and delivered a user-friendly reporting feature for streamlined file management.
- Contributed to team success in IBM National Hackathon setting through collaborative development and problem-solving.

### Hospital Management System | HTML, CSS, JavaScript, Node.js

December 2024

- Designed and implemented a web-based system for managing patient records and appointment scheduling.
- Created intuitive interfaces enabling secure, responsive access for staff and patients across different devices.
- Improved administrative efficiency and user satisfaction through streamlined workflows and user-centered design.

## Certifications

### Google Cloud Certified

June 2025

Certification

- Achieved Google Cloud Certified status, demonstrating proficiency in cloud architectures and services.

### UiPath Certified: Automation Process Developer (Studio)

July 2024

Certification

- Validated expertise in RPA design and development using UiPath Studio.

### Let'sUpgrade Python Project Bootcamp

July 2024

Certification

- Completed intensive Python development bootcamp with hands-on projects and code reviews.

## Technical Skills

**Languages:** Java, JavaScript, HTML/CSS, C, SQL, Python.

**Developer Tools:** VS Code, Eclipse, Git.

**Technologies/Frameworks:** Node.js, Express, React.

## Achievements

### Final Round Participant, IBM National Hackathon

August 2025

Achievements

- Qualified for the final round after excelling in a first-round challenge focused on Data Structures and Algorithms.
